A John Cole arrived in ASHO, attempting to obtain OT materials. He was handled by D/G Info US and thrown out. In April 72, it was discovered that he was a special agent for the Attorney General's Office, working from Rampart's Division. In 1970 the C of S was having trouble with Rampart's police station and D/G Info US assigned the source of the agent to Ramparts. The later data about his being an Attorney General's agent was ignored.

John Miner, Dep District Att for L.A. attempted to organize a multi agency attack on Scn including the Dept. of Public Health, Food and Drug Division, the IRS, and the D.A.'s office. Discovered in Feb 72, by the D/G Info US. Because of other data also discovered at the same time, the D/G Info US targetted the IRS, the

In March 1971, Lawrence Tapper, Dep. Att Gen L.A. area, blocked the registration of the C of S Virgin Islands by sending entreats to the Att Gen there. This was discovered in Nov 1971; Tapper was known to have previously given the Church trouble, and the D/G Info US reported that an extensive background check was underway on Tapper, and he thought legal was looking at a suit. No reports arrived at WW on any investigation of Tapper, until Feb 1974.

Rodger Brown, Asst D.A. Yolo County, began investigating Sen. This was heavily investigated by Info US and D/G PRO US did an interview and partial handling in Jan 74. From Brown's interview, he was interested in misrepresentation and practicing medicine without a license. He is looking for a pattern that runs through the Churches, not an isolated incident. He stated he would use plants, cameras and tape recorders if necessary. Brown stated that he had known someone in the State Att Gen office who was once investigating heavily, that he and the State Att Gen office and the Consumer Affairs Dept were going to meet to discuss mutual files - that he knows of an investigation into Sen by Att Gen office L.A. and that he had alerted all D.A.'s and Attorney Generals in California to send him data.

The Info Bureau has not followed up the L.A. Att Gen Office, or the State Att Gen office.

No handling proposed by Legal.

PR has not proposed a PR handling or deagedentated Australian or other data that Brown has.

The proposed B4 handling has not been sent to WW and has not been activated for 4 weeks.

Major outpost on GO lines is omitted.

ADMIN WHY

D/G Info US has omitted evaluations, assessments, summaries, evaluations of correct importances, in relation to huge amounts of data being obtained, thus obscuring by sheer volume, the Justice situation, from himself, his seniors, and other bureaus.

ETHICS WHY

D/G Info US knowingly operating in violation of Intelligence Policies and Directives on handling of data.

IDEAL SCENE

D/G Info US on policy accurately reporting correctly assessed data and indicating importance on the California Justice lines, so that his seniors and U.S. Bureau D/G's know what situations exist and co-ordinated actions can be taken by all GO US Bureaus on the Justice lines to handle terminatedly.

BRIGHT IDEA

Get D/D/G Info US at WW to perform the functions of evaluations, assessments, summaries, and evaluation of correct importances of the data obtained and supplied to seniors and other bureaus so as to assist D/G Info US who is currently overloaded.

PLAN

Locate who is instigating this continuous series of investigations by interviews, procurement of files, etc. Info to be given to PRO and Legal for use.

11 982

PRO to dead agent every piece of entheta known about on the California Justice lines or to use good guy packs for areas where we have no data, or where L4 covers are jeopardized. Legal to check out the laws

on whether we can do legal actions on libel, conspiracy, and maybe utilize the Freedom of Information act. Handle the data handling problems.
